

1 Selection of Database (eg World Development Indicators)

2 Selection of countries (eg all countries)

3 Selection of series (eg GDP)

The screenshot shows the World Bank DataBank interface. The 'Variables' panel on the left has 'Country' and 'Series' dropdowns. The 'Series' dropdown is open, showing a search bar with 'GDP' and a list of series including 'GDP (current US\$)', 'GDP (constant US\$)', and 'GDP (constant 2015 US\$)'. The 'Time' dropdown is set to 'Available'. The 'Preview' panel on the right shows a message: 'OK, Please select remaining variables to continue.' with a list of selected variables: 'Country', 'Series', and 'Time'. A blue 'Apply Changes' button is at the bottom right of the preview panel.

4 Selection of timeframe (eg 2020 - 2000)

The screenshot shows the World Bank DataBank interface. The 'Variables' panel on the left has 'Country' and 'Series' dropdowns. The 'Time' dropdown is open, showing a search bar with '2020' and a list of years from 2000 to 2020. The 'Preview' panel on the right shows a message: 'Please click on Apply Changes to view the output.' with a list of selected variables: 'Country', 'Series', and 'Time'. A blue 'Apply Changes' button is at the bottom right of the preview panel.

5 Download CSV file

The screenshot shows the World Bank DataBank interface. On the left, there's a sidebar with 'Variables' and a list of indicators. The main area is titled 'Preview' and shows a table of data for the 'GDP (current US\$)' indicator. The table has columns for years from 2012 to 2018. The values are: 19,407,317,360; 20,146,404,096; 20,497,138,770; 19,154,211,763; 19,116,363,494; 18,753,499,400; 18,373,228. The page also includes a 'Variables' sidebar on the left and a 'Preview' tab on the right.
